## EDUCATION

### Computational Math, Minor in Computer Science

University of New Mexico | 2015 - 2020

## PROFESSIONAL EXPERIENCE

### Programmer, The University of New Mexico Health Sciences Center

Aug 2017 - Present

Assistant webmaster, working on data, business intelligence, and analytics. Creating websites with HTML, CSS, and Bootstrap. Utilized R Programming to plot maps for our organization in regards to how many clinics Project ECHO handles. Day to day basis includes monitoring our website, designing, and displaying content.

### Data Analyst, CureDM

May 2017 – July 2017

Clinical data analyst, I reviewed and ranked individual patient's outcome data of their phase 1b study in type 2 diabetes. This process helped CureDM better understand and define the best inclusion and exclusion criteria for their follow on phase 2 proof of concept study in type 2 diabetes patients.

### Test Analyst, Modern Air Power

Aug 2015 – May 2016

Worked at UNM as a test analyst under Dr. Hussey, Modern air power is a software created by John Tiller designed to use modern weaponry to terminate enemy forces. Mastered the software and was able to move to the full version.

## Start Ups & Ventures

### Indigenous Beats, INC.

Aug 2015 – Aug 2017

Served as CEO for a start-up I co-founded in 2015. Secured \$20,000 USD in seed funding from ABQid (New Mexico's biggest accelerator program). Daily operations/ cofounder – Oversaw all daily business operations: maintaining budgets, allocating resources, forming corporate structure, patents, trademarks, creating company culture, setting strategy/ direction, and assisting with major company decisions.

### European Innovation Academy

July 2017 – Aug 2017

World's largest extreme entrepreneurship program. From an idea to tech star up in fifteen days. Worked alongside other students, mentors, and experts.

### Kobö

Nov 2018 – Present

Made an iOS game with a colleague, using the game software BuildBox. Kobö is a hyper-casual game that forces the user to use their brain in making quick decisions as they pass each level. Averaging 16 downloads per week with a grand total of 213 downloads with no marketing. Up 85% since we've released our app on the Apple Store.
